February 2024

Dear Treasurer:

From April 2024, NFWI has introduced a new policy on payment of subscriptions. There are now some very strict deadlines that we all need to meet for payment of membership fees.

- 1 April – WIs should begin to collect subscription payments from members
- 30 April – Deadline for WIs to send Federation share of subscription payments to CFWI

Please begin to collect 2024 subscriptions from your members now, if you haven't already.

2024-25 subscriptions are £48 for full members and £23.60 for dual members. These figures may be lower if your WI has chosen to waive part or all of the WI share of the subscription.

Once you have received subscription payments, please make sure your WI's MCS Representative marks each member as having paid. NFWI uses MCS to track the number of WI members there are, and to base their reports and financial predictions on.

NFWI recommends that wherever possible subscription payments are paid via BACS as this is easier to trace and account for.

Thank you so much for helping us meet these important deadlines.

Yours sincerely

Rachel Andrews  
Federation Treasurer
